

KONICA MINOLTA

pagepro 1580MF

MINIMISE ALL. MAXIMISE ALL.

Copy, Print, Colour Scan.
Easy-to-Use Functions in a Compact Size

- *Fast 20 ppm monochrome laser printing*
- *High-resolution colour scanning*
- *Economic consumables*

Giving Shape to Ideas

pagepro 1580MF

Easy to Operate Copy Settings and Colour Scanning

The pagepro 1580MF is designed for easy operation. Actions such as copy settings, colour scanning and job cancel can be performed with a touch of a button.

ID Copy Function

Ideal for copying ID cards and other small-size double-sided documents, the ID Copy Function enables you to easily copy both sides of a small document to a single sheet of paper.

Fast 20 ppm Printing

The pagepro 1580MF is capable of producing high-quality monochrome print output at up to 20 pages per minute (ppm), fast enough for personal use and as an office desktop printer.

Convenient, High Quality Scanning Features

The 600 dpi colour scanner offers a fast and convenient way to digitise documents. The supplied software allows you to scan directly to email, scan to file, scan to image, and scan to OCR. This last feature enables you scan a paper-based text document to an editable text file.

Bypass Tray and Straight-through Paper Path

The single bypass tray combined with a straight-through paper path allows you to print on a wide range of paper sizes and thicknesses, including envelopes and labels. What's more, the direct paper path means your output remains flat with minimal curling.

Convenient Front Access

Paper replenishment and toner cartridge replacement can be made as quick and simple as possible with convenient front access to the internal paper tray, the bypass tray, and the toner cartridge. And thanks to the generous 250-sheet capacity of the paper tray, you will spend less time replenishing paper and more time getting work done.

Product appearance, configuration and/or specifications are subject to change without notice.
