### Package Contents

## Getting Started with Connect

(1) Connect the RX100 receiver to the display using the power cable and HDMI cable. If the display does not have a Type-C port to support power more than 5V/2A, use the included switch cable to convert it into two USB-A connectors. One of the USB-A connectors should be USB3.0, which can supply power for the receiver. Alternatively, you can connect the Type-C cable to a power adapter (not included in the package).

(2) To connect a USB webcam, plug the camera's USB cable into the USB-A port on the receiver.

For the list about compatible USB webcams, please contact the distributor or dealer in your area.
