Revolutionary. Intelligent.

When meeting face to face, we can look directly at each other at eye level. As we enter a new era of hybrid work with accelerated usage of video meetings, the current video conference equipment has not yet caught up.

- Meet virtually at an **eye-level**, front-facing position.
- Produce the **360° panoramic** view with minimal distortion.
- Create and immersive video experience with **AI-powered facial tracking**
- Adjust **video layouts** based on different types of meeting purposes.
- **Capture your voice** clearly from the center of the table.
- Simply as to **plug-and-play** for your laptop.
- Completely **hassle-free control** - no software, no app required.

Improve meeting quality and ensure that no one is excluded from the conversation by dedicating close-up shots to everyone in the room. Enhance interpersonal interaction by delivering the most vivid and inclusive video experience for remote participants.

Unleash Your Creativity

Collaboration happens everywhere, from the physical world to the digital world, from personal workspaces to coworking spaces. No matter how and where collaboration takes place, your goal is to instantly connect, freely create, and effectively communicate.

Being able to show your content, and illustrate your ideas digitally by drawing and writing is the key to make collaboration more productive.

- Transform your PC into a **giant touch screen**
- **Visualize ideas** with best-in-class touch and intuitive Ideao Pen.
- Take notes on your document with full **Windows Ink** compatibility.
- Extended port **connectivity** and power charging to your laptop.
- Enjoy all the benefits of a **simple plug of a cable**.

Revolutionize the way you collaborate.

Sophisticated, High Precision Multi-Touch

Adapting the best projected-capacitive touch, Ideao Hub offers the best user experience with high accuracy and imperceptible latency. Optical bonding technology further eliminates the parallax to give you a natural touch and improve the contrast of the display.

Every effort put into Ideao Hub is to offer the most responsive and intuitive user experience, and let you touch, write, and draw as naturally as possible.

Say goodbye to the non-touch display, and enjoy the versatile Ideao Hub!

- ✓ Slim-edge for a seamless viewing experience
- ✓ QHD 2560x1440
- ✓ Best in-class P-Cap touch technology
- ✓ 4096 pressure level
- ✓ Microsoft Pen Protocol compatible
- ✓ Windows Ink optimization

Wireless Conferencing System

with Camera Streaming, and Integrated Speakerphone

Introducing Innex Connect - the all-in-one wireless conferencing system with full BYOD support. Connect your laptop to the speakerphone and access the meeting room display and camera wirelessly. Simplify your conferencing setup and eliminate the hassle of cables and drivers.

4K Wireless Casting

Effortlessly share your laptop screen on the big display with just the click of a button. No software is required - simply connect your laptop to the speakerphone for a seamless wireless casting experience.

Camera Streaming

Connect your conference camera without having a long cable. Access 1080P video wirelessly right from your seat with ease, and keep your video conference space clutter-free.

Plug & Play

No drivers or software are required with Innex Connect, making wireless conferencing as easy as plug-and-play.

Vocal Enhancement

The powerful speaker and 8-mic array are designed to enhance human voice against background noise and deliver immersive sound effects for every meeting.

Setup your clutter-free conference space

innex C570

4K e-PTZ Conference Cam

with Dual Noise-Cancelling Mics

Introducing the Innex C570, the 4K 120° wide-angle webcam with AI-powered framing and intuitive remote control.

5X Digital Zoom

Up to 5X digital zoom with pan and tilt to select the exact view you need to focus on.

120° Wide View Angle

Designed for small-mid sized meeting spaces and classrooms, capture more with less space required.

Auto-Framing

Camera embedded AI-powered smart framing. With one click, Innex C570 captures all participants and automatically adjust to the best framing position.

Remote Control

With the intuitive buttons and keys, you can customize all the settings with ease. Easy, hassle-free. No software required.

Noise-Cancelling Mic

Built-in two mics that picks up your voice clearly up to 4-meters, with noise-cancelling (ANS) to reduce background distractions.

E-pan, tilt and zoom to customize view
