Unleash Mobility and Collaboration!

Experience unmatched mobility and flexibility with the 55" Innex CM Series interactive display, designed to elevate collaboration. With full BYOM support, start video conferences instantly and wirelessly access essential features like the camera, mic, speaker, and touchback control. The pressure-sensitive pen delivers a natural, paper-like feel for enhanced creativity. Easily move the display to transform any space into a collaborative hub, boosting productivity and unlocking the full potential of your meetings.

P-CAP touch for clear image and precise touch

Built-in camera and 8-microphone

Integrated AI Camera and Premium Sound Quality

- Wide-angle camera featuring AI video modes including smart gallery, speaker tracking and auto-framing.
- Premium built-in microphone array and powerful speaker for full-room coverage.

Collaborate and Create with Windows Ink

Annotate, mark up, and highlight content using your fingers, the included writing pen, and the eraser tool on the Windows whiteboard, Office365, or Windows Ink, enabling seamless collaboration.

Intuitive Whiteboard

The CM Series whiteboard software enhances collaboration through an intuitive, interactive workspace. Users can annotate and capture screenshots directly from their laptops during screen sharing, integrating them seamlessly into the whiteboard for a more dynamic idea-sharing experience.

Microsoft Pen Protocol

The MPP 2.0 stylus pen elevates productivity with enhanced precision and responsiveness for a smooth, natural writing experience. Its 4096 pressure sensitivity captures every detail, making it ideal for sketching, note-taking, and annotating. Plus, the convenient tail eraser allows users to effortlessly correct mistakes with a simple flip.

Ultimate Wireless BYOD Solution!

Experience seamless collaboration with Connect Pro dongles, AirPlay, Miracast, and Chromecast for effortless screen sharing from any device. With multi-screen sharing, multiple users can present simultaneously, enhancing teamwork and boosting productivity.

Plug and Play Connect Pro Button

Airplay / Miracast / Chromecast

Multi-Screen Sharing

Wireless Conferencing with Camera Streaming

Wirelessly access the built-in camera and 8-microphone array from your laptop with high clarity using the Connect Pro Button or our software. Effortlessly integrate all your conference call software for enhanced collaboration, making presentations and video calls smoother than ever with seamless connectivity and stunning visuals.

Security Meets Convenience

With the bundled Connect Pro dongles, you can wirelessly display content and data directly from your laptop in just seconds. This eliminates the need for last-minute file transfers and reduces the risk of cloud drive password leaks when typing on an on-screen keyboard. Plus, it helps prevent unauthorized breaches by ensuring you don't forget to log off before the next user accesses the system.

Touchback Control with Microsoft Pen Protocol Support

Screen sharing with the Connect Pro Button, backed by MPP protocol support and touchback control, guarantees compatibility with Microsoft Office Suites, Whiteboard, OneNote, Edge and more.
