Giving Shape to Ideas

DISPATCHER PHOENIX GOOGLE DRIVE CONNECTOR

Direct Access to Convenient Online File Storage

Dispatcher
Phoenix

Access

Now you can take advantage of today's foremost solution for convenient, secure online document storage. With a simple touch, your files can be scanned, processed and distributed directly to Google Drive

Maximum Productivity

Using Dispatcher Phoenix's Google Drive Connector, you can secure and store important documents quickly and easily. Log into Google directly from your bizhub® touchscreen panel. Share documents with co-workers and collaborators. Process files before they are stored. All in a single step – leveraging the power of your bizhub MFP, maximizing your productivity and ensuring that your essential information is always secure. Create Google Drive folders at the MFP or automatically.

Lower Cost, Higher Security

With Dispatcher Phoenix's Google Drive Connector, you will have access to secure low-cost storage that on-site or media backup can't equal. Business users will be able to share mission-critical information – and working professionals in legal, healthcare, education and other specialized applications will have an easy on-ramp to store essential data.

Capture, Process, Upload

The Google Drive Connector makes it a simple, seamless process. Files can be collected from a variety of sources, such as local/network folders and MFP user boxes, or scanned directly from your bizhub or other networked MFP. And before being uploaded to Google, files can be automatically converted to PDF or Microsoft Word, renamed, Bates stamped, watermarked and much more.

Enhanced Display

A visually enhanced display appears on your bizhub touchscreen, allowing you to log in, view your Google Drive folders in a familiar Windows Explorer-like display, create a new folder or quickly find an existing folder using type-ahead search functionality, and then scan your document into Google Drive.

Automated Workflow

For a total hands-free scanning and storage solution, you can customize an automated Dispatcher Phoenix workflow to send files to a specific folder or create a folder using file metadata while your workflow runs.

Professional Advantages

For working professionals, Dispatcher Phoenix Google Drive Connector can save time and improve service. By being able to quickly process and send files to Google Drive, teachers can share classroom materials more easily. Healthcare practitioners will be able to compare records and access insurance data from multiple locations. And law firms can speed the assembly of case files, transcripts, affidavits and other documents.

The Dispatcher Phoenix Family of Automated Document Workflow Solutions

Dispatcher Phoenix Foundations

Perfect for small to mid-size business needs, with powerful features for scanning, routing and processing.

Dispatcher Phoenix Professional

Adds more document processing power and sophisticated tools for rules-based distribution throughout large organizations.

Dispatcher Phoenix Office

This convenient bundle includes all important modules required for office document processing such as Covert to PDF / MS Office formats, Advanced OCR (Zone OCR), SharePoint Connector and the very useful Distribution Connector bundle which consists of connectors for the 4 most popular online cloud storage services Google Drive, One Drive for Business, Dropbox, Box and some additional destination connectors.

Powerful and Economical with Easy-to-Use Features

All versions of Dispatcher Phoenix include a graphical Workflow Builder tool, a Workflow Scheduler, LiveFlo technology, MFP integration with a visually enhanced display, document indexing and Windows Explorer-like folder browsing at the MFP, and robust authentication options.

Add-In Options

With Dispatcher Phoenix's modular architecture, you can increase the power of your workflow at any time by purchasing add-in modules, such as forms processing with pattern matching technology, a convenient and secure Release2Me print release system, advanced job routing processes, and much more.

Connectors

Other connectors to popular content management systems and cloud storage service solutions are available, including Workshare®, OnBase® by Hyland, Worldox® by World Software, Microsoft SharePoint® and OneDrive®, Box®, Dropbox®, WebDAV, FilesAnywhere®, Konica Minolta's FileAssist, etc.
