OPS capability by excellent A3 MFP affinity

■ Improved device management with PageScope Enterprise Suite

The bizhub C3100P is compatible with the PageScope Enterprise Suite (PSES)*1 server management software. This software centralises management tasks such as account management, user and department authentication management*2 and authorisation management on networks, and reduces administrator burden in large-scale offices. It also provides printing management such as pull printing, and is available for bizhub C3100P and bizhub A3 MFPs.

Also, OPS (Optimised Print Services)*3 which are services provided by Konica Minolta can enhance the performance of PSES. OPS mainly offers optimised placement of office devices. This means that office devices can be utilised as efficiently as possible.

<Examples of supported applications>

PAGE SCOPE Enterprise Suite

PageScope Authentication Manager	·········· Authentication management
PageScope Account Manager	·············· Account management
PageScope My Print Manager	·············· Pull printing
PageScope Net Care Device Manager*4	······· Device management

*1 Optional Hard Disk HD-P06 is required.
*2 Optional Authentication Unit AU-201S is required.
*3 OPS (Optimised Print Services)
   Konica Minolta's consulting service that proposes the optimal placement of devices to streamline the office document environment and further reduce total cost of ownership (TCO).
*4 Freeware

■ IC Card Authentication

Main unit authentication is possible*5 when the optional IC card reader is installed. In addition to the above, installing PageScope Authentication Manager*6 allows integrated user management in mixed environments with A3 bizhub devices.

*5 Optional Hard Disk HD-P06 is required.
*6 PageScope Authentication Manager: Optional, Refer to left

⚠ **Requirements for safe use**
- Please read and follow the instruction manual to ensure safe operation.
- Only operate using appropriate power supply and voltage.
- Connecting the earth wire to an inappropriate place may cause explosion or electric shock. Please connect accordingly (Taiwan and the Philippines only).

bizhub
C3100P

High performance and productivity printer with compact body.
To provide fast 31 ppm output in both colour and monochrome.

Mobile connectivity to support new work style

■ Compatible with wireless LAN environments

The bizhub C3100P can connect to a wireless LAN as a client*1, giving greater flexibility when it comes to installation. Furthermore, the product can be used as an access point to create a wireless LAN environment*2, thereby adding even greater flexibility to the working environment.

*1 Optional Network Interface Card NC-P03 and Mounting Kit MK-P07 are required.
*2 If it is used as an access point, it cannot be used as a client.

■ Authentication through Android device

User authentication*3 is now available via Android device with NFC antenna*4. Secure authentication will be same way as IC card authentication.

*3 Optional Authentication Unit AU-201S is required.
*4 Installation of the PageScope Mobile application to an Android device which has NFC and a host-based card emulation (HCE) function is required.
   Optional Hard Disk HD-P06 is required.

Outstanding affinity with mobile devices

■ AirPrint*5
Print from iOS device (iPhone/iPad/iMac/MacBook) without using printer driver.

AirPrint

■ Mopria Print Service*5, *6
Print is possible from devices equipped with Android version 4.4 OS or later without using printer drivers.
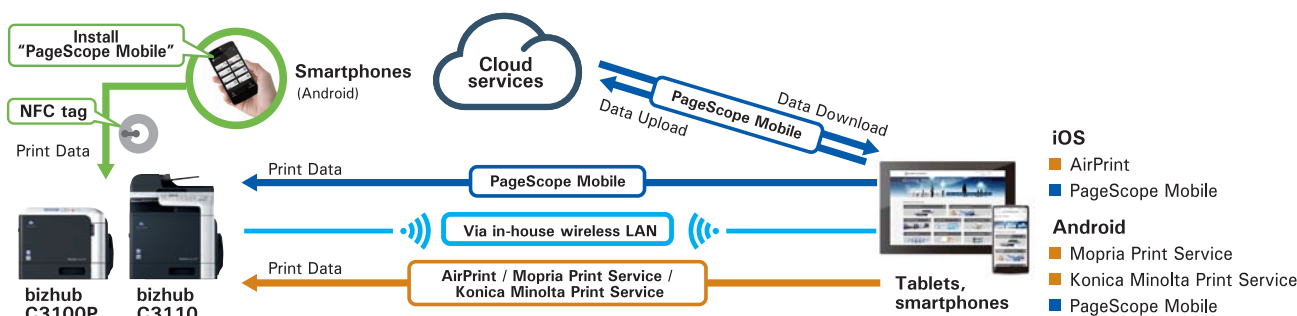

mopria

■ Konica Minolta Print Service*5, *6
Direct print from any print function capable Android application to the bizhub.

■ PageScope Mobile*5, *6
Konica Minolta mobile print application for both iOS and Android devices. Use the Android version to print just by touching the NFC tag*7.

*7 The Android device must be equipped with an NFC antenna. First, you need to use the NFC Tag Writer to write device information to the NFC tag. The NFC tag is sold separately. Please contact your local Konica Minolta service provider for details.

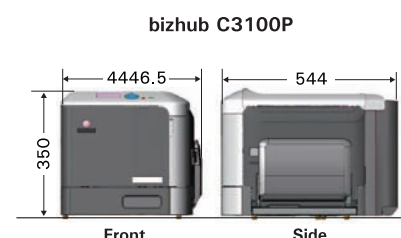

High productivity and ease of use in a compact design

■ 446.5 mm (W) × 544 mm (D) compact body

With a width of just 446.5 mm and depth of 544 mm, the bizhub C3100P have very small footprints.
In addition, legal size paper output*1 is also supported. Moreover, 850-sheet paper capacity is available with the same compact footprint when the optional paper feeder unit is installed.

*1 When feeding from the multiple bypass tray or the optional Paper Feeder Unit PF-P14.

One class above image quality and functionality within the compact body

■ High-speed output of 31 ppm for both colour and monochrome

The bizhub C3100P can both print at a high speed of 31 ppm (A4, colour/B&W). A duplex printing function is equipped as standard.

■ Equipped with Konica Minolta's proprietary advanced Emperon controller

The Emperon printer controller developed from Konica Minolta's proprietary technology provides standard compatibility with mainstream page description languages*1 such as PCL, PostScript and XPS. Moreover, a variety of file formats such as JPEG, PDF and OOXML can be processed at high speed and output at high image quality. In addition to regular network printing, direct printing*2 of data stored in USB memory devices is possible without using a PC.

*1 PCL5e/c Emulation, PCL XL ver.3.0 Emulation, PostScript 3 Emulation (3016), XPS Ver.1.0 (With HDD installed), PPML/GA2.2 (With HDD installed), PPML VDX (With HDD installed), OpenXPS (With HDD installed), PDF1.7 (With HDD installed)
*2 Optional Hard Disk HD-P06 is required. Supported formats: PDF (up to 1.7), CPDF, JPEG, TIFF, XPS, CXPS, pptx, xlsx, docx, OpenXPS, PPML/GA2.2, PPML VDX

■ 1,200 dpi High Quality mode

The bizhub C3100P feature a 1,200 dpi High Quality mode*3 which provides outstanding reproduction of small text and very thin lines. This allows more detailed output of highly elaborate diagrams and documents with small text.

*3 Output speed will be reduced.

Outstanding environmental performance

■ Compatible with global standards for environmental regulations

The bizhub C3100P conform to a variety of environmental regulations and standards around the world, including the International Energy Star Program Version 2.0, The Blue Angel, EPEAT, and China's Energy Conservation Certification and Environmental Labelling Program.

Energy Star   The Blue Angel   EPEAT   Energy Conservation Certification   China Environmental Labelling

■ Proprietary Simitri HD toner

The C3100P adopt Simitri HD toner which offers less environmental impact during its production and reduces power consumption with low temperature fusing. The toner is also carbon neutral as it is produced with plant-based biomass materials.

Simitri with Biomass

■ One-touch power saving key

The bizhub C3100P let you save power easily by switching to Sleep mode or ErP Auto Power Off mode with a push of a key on the control panel.

C3100P

C3100P: Sleep mode: Short push of Power button
          ErP Auto Power Off mode: Long push of Power button

■ Recycled materials and recycled PC for main unit

Environmentally conscious recycled PC is used in various locations of the main unit.
