

Is your business being held back by these common challenges?

The harrowing experience of extracting data from a gazillion structured and unstructured documents?

Classifying a sea of unwieldy paper documents correctly based on extracted data?

Losing efficiency due to laborious & time-consuming manual data entry tasks?

Manpower wastage by being forced to allocate teams on manual document processing?

offers a smart way out of the vicious cycle.

Dispatcher Phoenix – a part of Konica Minolta's Biz-out-of-the-Box Solution Suite - is a powerful document capture application. It helps organisations collect, store, process and distribute documents and data, thus automating organization-wide processes via easily configurable workflows.

CAPTURE IT

Via OCR, scanners & multi-copiers, Dispatcher Phoenix captures data from multiple input channels such as

Input Folder

Paper docs

Emails

Mobile

Drop Box

Shared drives

MFP

PROCESS IT

Dispatcher Phoenix syncs all collected information seamlessly into your organizational workflows by automating the vital tasks of:

Data Extraction

Auto Document Classification

Image Enhancement

Document Annotation

Formatting

DISTRIBUTE IT

Ensure information reaches the right teams and touchpoints by delivering the processed data and documents to multiple channels such as:

ECM REPOSITORY

BUSINESS APPLICATION

BPM Platform

EMAIL & OUTPUT FOLDER

Experience never-before advantages with Dispatcher Phoenix

Fast

Quicken workflows through faster extraction & delivery of information, minimizing errors & automating manual activities such as data extraction, document classification, data entry & delivery.

Simple

With its one touch, hands free nature, Dispatcher Phoenix is super easy to use : Teams are good-to-go from Day One even without any training.

Versatile

Convert any format into familiar & convenient formats like MS Office. Add features like watermark, annotation & renaming and route documents to folders, FTP servers, MFPs or email recipients automatically

Flexible

Schedule network-intensive processes after hours to maximise network performance and free up bandwidth during workday.

Always 'On'

Run workflows even when the Dispatcher Phoenix application is not open.

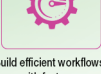

Work on the go

Access on mobile anytime, anywhere.

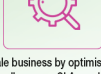

Experience never-before advantages with Dispatcher Phoenix

Experience vastly improved ROI and cost-intelligent operations with centralised and automated document centric workflows

Build efficient workflows & teams with faster processes and operations.

Scale business by optimising overall process SLAs and by leveraging automation to free up resources for additional tasks.
